

Bird list considerations: Geographic representation

Diverse places,
people, priorities

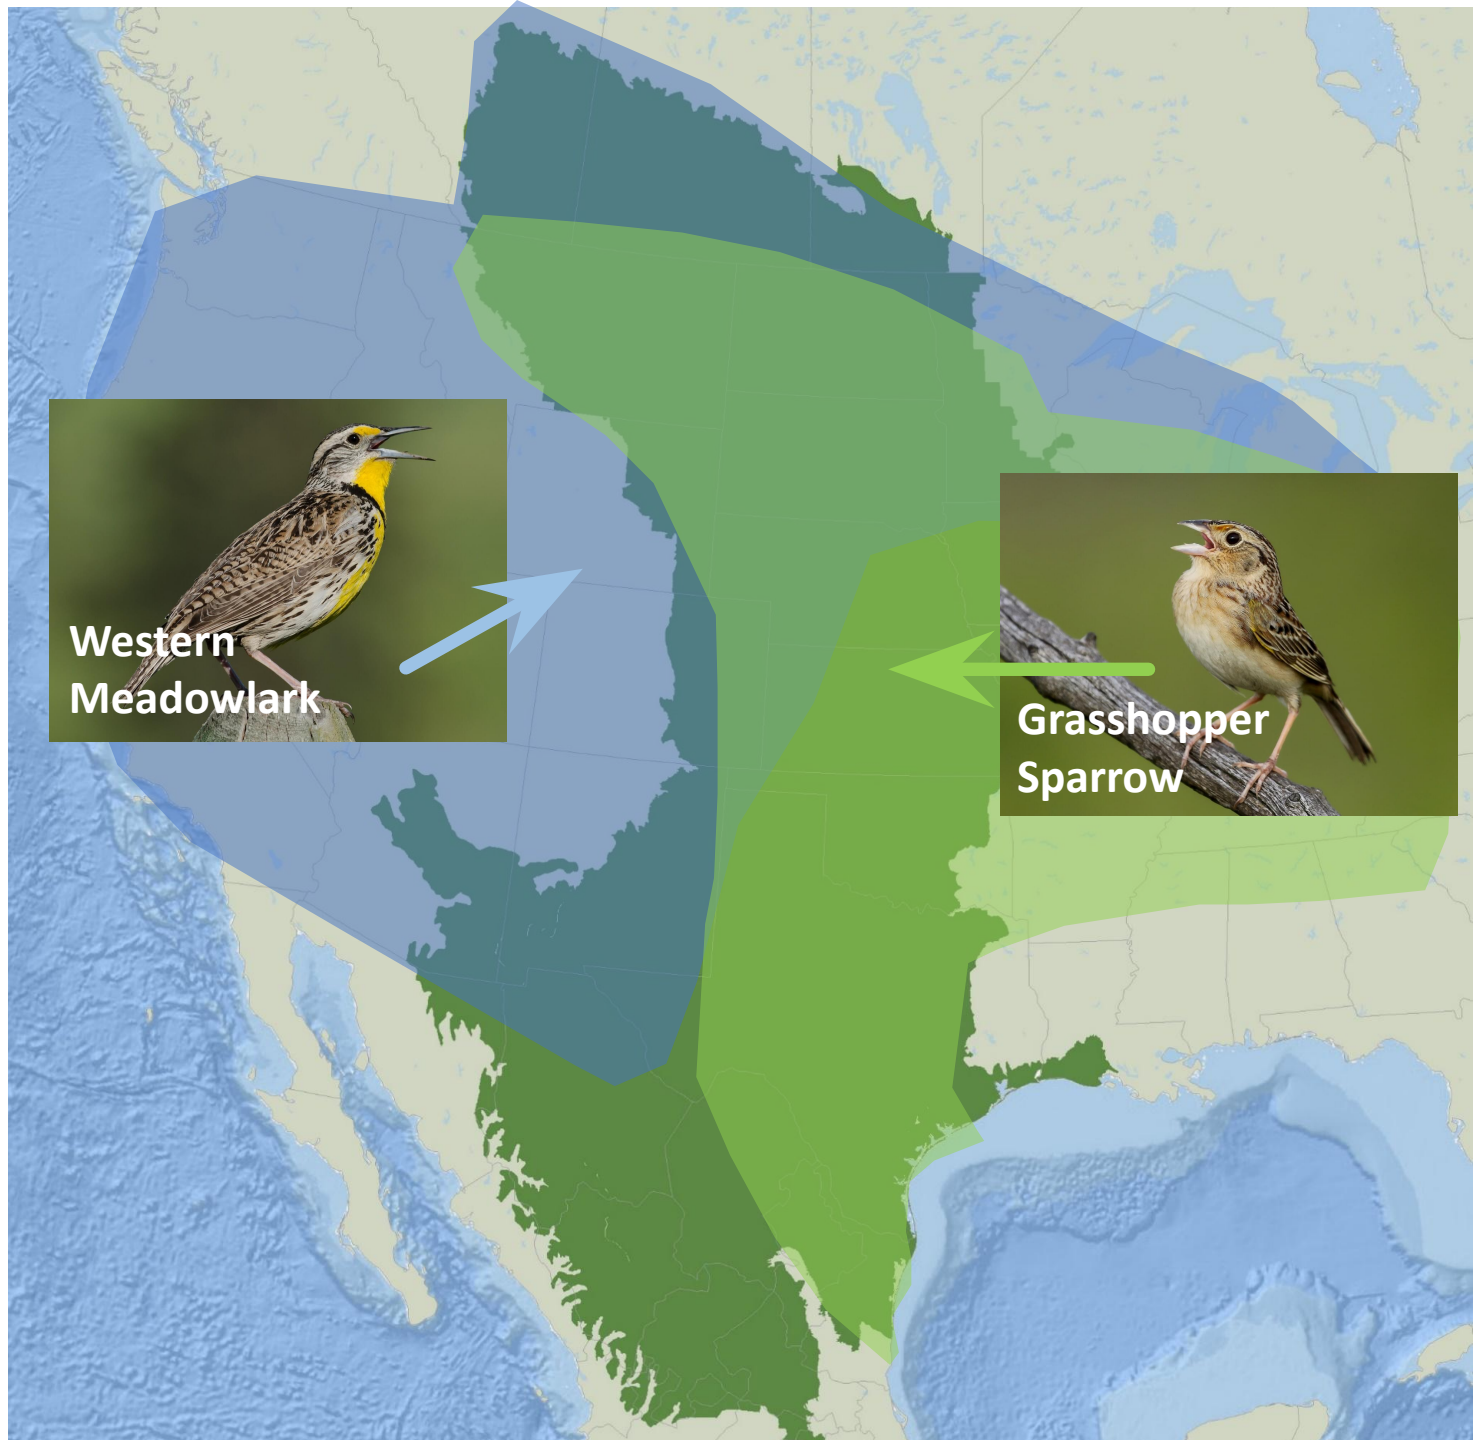

Bird list considerations:
Geographic representation

1. R2R grassland species: most breeding concentrated in N. Great Plains

Bird list considerations: Geographic representation

1. R2R grassland species: most breeding concentrated in N. Great Plains
2. Key grassland bird species representing larger geographical area

Western
Meadowlark

Grasshopper
Sparrow

Bird list considerations: Geographic representation

1. R2R grassland species: majority concentrated in N. Great Plains
2. Key grassland bird species representing larger geographical area
3. A few species using broader range of habitats, engagement with broad constituent base
